

MEMBERSHIP REPORT - Submitted by Barry Kemball, Chairman

The first part of August we had our membership listing updated at Alphatext. All the acronyms have been updated. As everyone is aware, the summer months are the busiest for noting changes of our members. Before having another updating done, hopefully early next month, I wish to go over the listing and delete any unnecessary information, i.e. group level, sex, etc.

Many members from the PM group listed in the PAN Notices are members on "Secondment" therefore, this Local will not collect their share of Local dues as they still come under the CIDA Local.

Up until now, no members from IT&C have been transferred officially or noted in the PAN Notices. We are still awaiting confirmation from Mr. Sinclair as to their appointment date.

As the Coordinator for the Action Committee from this Local I stressed that keeping our membership records updated is a priority item. The Regional Action Committee will be developing programs designed to bring before the members the opinions of the PSAC in relation to Bill C-124 and its effects.
