7. REPORTS

Garry Doherty, President verbally reported that since the last meeting he has attended a 6-day in residence course for Local Officers in Hull. Also attended a meeting with Management concerning redeployment and new initiative including departmental reduction plan. Three days later the GSMES were informed in writing of the Dept's decision taken "which will affect all GSMES O2 staff in MGI. Many Departments are being severely cut. All groups will be affected. This Executive will be very busy, Gary stressed and the members' co-operation and help will be greatly needed. You must get involved with your group, Garry added. We will request Management that a member of this Union (Local) sit on the Staff Member Review Committee so that we have an input on where the vacancies are so that these are not filled by competitions.

M/S/C G. Doherty, seconded by R. Phillips that report be accepted.

Much discussion followed.

Barry Kemball, Second Vice President verbally reported attending the 'All Candidates' meeting on October 15. Was also present at a meeting with Management on Departmental reductions and re-deployment. We went away with high hopes that there would be no staff cut in the Dept. which could not have been further from the truth. Historical Research Div. staff (2 scys and 1 clerk) had already been approached and told that on November 15 they would receive their 'surplus' notices. We had also heard that GSFOS, BUS at Rideau Gate had been approached. Once the GSMES in MIGK received the Dept's letter I met with them to let them know that this Local would do everything possible to help them retain their jobs. On October 21 I called another meeting with the GSMES 02 with Lynn Starchuk, Gary Doherty and Gerry Sarazin in attendance. Lynn was able to explain to them their avenues once they receive their surplus letters. It was followed by a question period. I have met many times with the group or individuals since then. Management have also called meetings with the GSMES 02 group and I am please that this dialogue is taking place. The GSMES positions we understand will be contracted out to the Corps of Commissionaires. How many positions will be contracted we do not know but it will affect every group.

I am and intend to continue to help as much as possible.

M/S/C B. Kemball seconded by R. Phillips that report be accepted.

Much discussion followed.
